

# Camp Addisone Boyce Scout Geocache

## Camp Cache Series

There are four caches in the Camp Cache Series. All of the caches are set right around main camp within a ½ mile of Clegg hall. All are traditional caches in 6x8 clear Tupperware containers. Each has a log to sign, tokens & code word to collect, and instant camera to take a picture of your gang. Please put the containers back as you found them, and make sure they're not visible to casual hikers. The clue for each cache is scrambled, use it only if you're desperate – decryption key is at end of Series sheet. Our Garmin GPS was reading 24 - 35ft accuracy when we set the caches.

### **ROCKY CACHE**

**N41° 16.025 W74° 00.510** (WGS84)

This cache is set near several Black Birch saplings, if you chew on a twig – it tastes like root beer. Be careful! The rocks can be slippery.

### **BOUNCY BRIDGE**

**N41° 16.105 W74° 00.701** (WGS84)

This cache is set near one of our favorite places at camp. A terrific Gold Project!

### **IT'S NOT SO SUNNY**

**N41° 15.989 W74° 00.752** (WGS84)

It was raining the afternoon we set these caches, hence the name. This cache is near one of the camp Peace Poles.

### **WATERSLIDE**

**N41° 15.820 W74° 00.654** (WGS84)

We really wanted to cache this one on Turtle Island – but the Kamikazes wouldn't ferry us over there!
