

MOTALA

Motala - an individual relay. An excellent activity for small areas such as a schoolyard or camp setting.

Each participant completes each of the course loops in different sequences. In a four (4) loop motala one quarter of the group starts with each of the four different courses. Each course has 3-5 control sites. Upon completing their first loop participants receive a map for another loop. This procedure is repeated until each of the loops has been completed. The chart listed on the reverse side gives 24 patterns using four loops.
